### REASONS FOR ALLOWANCE

In response to applicant's amendment filed 3/15/2007 claims 1, 3 have been amended and claim 5 canceled. Claims 1-4, 6-30 are pending and allowed.

The following is an examiner's statement of reasons for allowance:

Re claims 1-2, 4, 6-16, the closest cited prior art Pan (5,706,371) fails to teach or fairly suggest an integrated optical isolator device, comprising: a planar optical substrate; a first waveguide formed in said optical substrate and having an input section and an output section, at least said input section including a first taper section for expanding forwardly traveling light from a first mode size to a second mode size; and a passive isolator element affixed to said optical substrate and positioned in an optical path of said first waveguide between said input section and said output section, said isolator element being configured to allow the passage of forwardly traveling light from said input section to said output section of said first waveguide while inhibiting the passage of backwardly traveling light from said output section to said input section~ wherein said isolator element comprises at least one Faraday rotator layer interposed between birefringent layers.

Re claims 3 and 17-30, see reasons for allowance in the communication mailed 12/20/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

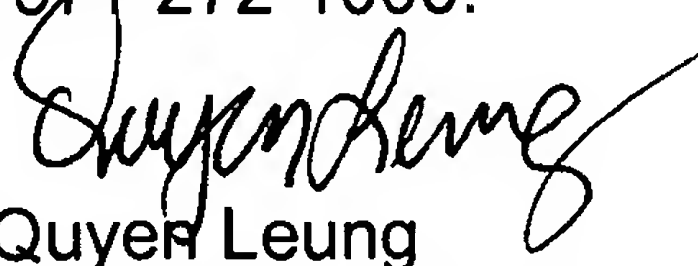

Art Unit: 2874

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
